Taddington Road

Chaddesden

DE21 4JU

TEL: 01332 674355

Travel Consultations

Please read prior to completing travel questionnaire

There are many different vaccines available - some are private and some free on the NHS. Some vaccines are essential to gain access to specific countries. For example Meningitis ACWY for travel to Hajj or Umrah.

We can advise you if your trip requires vaccination to gain entry.

POINTS TO CONSIDER

Book adequate travel insurance - including repatriation and cover for any high risk activities you may have planned (e.g. quad biking).

If you require malaria medication you will need to obtain this from a prescribing pharmacy - we do not issue prescriptions for malaria medication in the surgery.

Travel appointments are more than just vaccinations. Only a minority of illness abroad is from a vaccine preventable disease. Your consultation will include advice you need to put in place to provide a safer trip.

LOCAL PRIVATE TRAVEL CLINICS

Travel Doc:

<http://www.travel-doc.com/derby-travel-vaccination-clinic/>

99-101 St Peter's St, Derby, DE1 2AB

TEL: 01332 347926

CONSULTATIONS

Before making an appointment with us there is a travel form to complete. It is important that you complete this with **as much detail as possible**. We need to know specifically where you are going within a country as health risks vary from area to area. We also need to know modes of transport within a country, accommodation and planned activities,

When booking your travel consultation with us we ask that you complete forms with **at least 8 weeks notice**. This is due to some courses of vaccines taking this long to become effective.

We are only able to offer consultations for a **maximum of three countries**. If you require a more complex consultation we ask that you visit a private travel clinic first and then book in with us for vaccinations free on the NHS: (Tetanus/Diphtheria/Polio, Hepatitis A, Typhoid and Cholera)
